Client Support & Care Coordination Experience

- Provided crisis intervention, emotional support, and active listening to individuals experiencing emotional distress, suicidal ideation, anxiety, depression, grief, and other mental health concerns.
- Conducted comprehensive suicide risk assessments and safety evaluations to determine appropriate levels of intervention and support.
- Utilized evidence-based de-escalation techniques to reduce emotional intensity and promote stabilization during crisis situations.
- Collaborated with supervisors and clinical leadership to ensure adherence to crisis response protocols and continuity of care.
- Developed personalized safety plans and coping strategies to support callers in maintaining safety following crisis interactions.
- Maintained accurate, timely, and confidential documentation of crisis contacts, risk assessments, interventions, and follow-up recommendations.
- Demonstrated cultural responsiveness and trauma-informed communication when supporting individuals from diverse backgrounds and life experiences.
- Assisted callers in identifying protective factors, support systems, and community resources to promote resilience and recovery.
- Applied suicide prevention best practices when responding to individuals at imminent risk of self-harm or suicide.
- Utilized motivational interviewing, validation, grounding techniques, and problem-solving interventions to support emotional regulation and crisis resolution.
- Maintained professionalism, empathy, and composure while managing high-risk and emotionally charged conversations.
- Supported adolescents, adults, and vulnerable populations experiencing acute mental health crisis
